Professional Experience Summary

1982 – Present

Real Estate / Property Development

Marketing director, office management, sales support. Responsibilities encompassed all in-house marketing efforts in support of one of the nation's top residential real estate developers and his agents based in San Francisco. Annual sales in excess of \$220m. Provided broad-scale, digital graphics services via websites, computer graphics, property statements, brochures, CAD plans, digital photography, portfolio design, magazine and newspaper ad campaigns in local and national markets, as well as related marketing collateral production as required in support of satellite sales offices. Production of on-site property laser documentation, CAD plans and 3D model visualizations as needed. Maintained monthly sales and project close-out figures, projected sales revenues, provided commission accounting spreadsheets for large-scale, residential development projects, gathered and maintained comparable current market research data, acted as liaison between Owners and Developers in obtaining construction lending. Supported Sales Agents and Broker by updating pricing and unit price-mix statements on multiple websites daily.

Construction

As an employee with several Bay Area firms, I provided full office administrative services which included construction budget and sub-contract tracking, change order approvals, critical path project scheduling, tenant / landlord administration services, contract progress payments, applications to lender, cash disbursements, lien releases, and liability insurance requirements. As a consultant, I provide construction cost accounting and subcontract administration in businesses ranging from small general contractor / project management companies to larger corporate franchise construction operations.

Extensive experience in residential construction, food service industry and restaurant design/build projects. I provided outside and in-house training and support for general ledger PC accounting and payroll systems, as well as providing general daily office operations, support services and administration. NOTE: Blazona Properties served as General Contractor and Project Manager for the majority of the Max's Opera Cafes and Max's Diners in the San Francisco Bay Area.

Architecture

Responsibilities included 3D BIM modeling, project accounting, marketing, public relations, contract administration, AutoCAD drafting, website design and development, digital photography, project CSI specification manuals, computer systems support, special events and promotions, and general office management. Positions ranged from Personal Assistant to the Principal, to Office Manager in firms from 4-20 people.

Interactive Entertainment Software Development

Directed and managed staff of 35 computer graphics artists, representing graphics standards for U.S. studio products. Worked closely with engineering, executive producers and marketing in establishing software production schedules and budgets, ensuring goals met on multiple products.

Provided hands-on training, presentations and documentation in all studio CG applications as required, maintaining current site licenses for all seats of full Adobe / Macromedia product line.

Managed development of all internal visual content including product websites. Assisted with 3rd Party Development art review and coordination when required. Implemented comprehensive training programs for art staff members on related out-of-house software tools.

Prepared and monitored annual budget for studio art department. Assisted V.P. in preparation of studio annual budget. Responsible for art department staffing, staff career development, annual performance reviews and compensation. Coordinated visual presentation of projects in production and pre-production for review by executive management.

CAD / 3D Graphics Software Development

Specialized in multimedia software direct technical support for 3D Studio MAX, AutoCAD and numerous add-on products via Third Party Developers and "Value Added Re-Sellers". Worked with The Yost Group on development of 3D Studio MAX Beta, pre-release and development support. Provided hardware and software configuration support to Autodesk resellers, support contract accounts, and worldwide customers via telephone, Internet services & CompuServe Forums.
